Sprague Pumps and Hydraulic Equipment

Boig and Hill Inc. is the go-to company for Sprague pumps and other hydraulic equipment. Our goal is to deliver quality customer service to our clients by providing them access to our experienced, helpful staff and offering a variety of top of the line Sprague products. With the largest selection of valves, controls and instrumentation, one of our representatives is sure to find you the replacement part you need from Sprague gas boosters to Sprague hydraulic air driven pumps.

Sprague's Premium Gas Boosters

Various industries use gas boosters to deliver high pressure gases. Our selection of Sprague gas boosters provide you the quality equipment you want while ensuring the safety you need. Our selection of Sprague gas booster products include a gas booster power unit suitable for use in hazardous areas, a breathable air booster, pneumatic boosters, and nitrogen gas boosters assembly dies, molds, and plastics. Whether you are in need of a gas booster for laboratory or shop use, Sprague gas boosters offer superior protection for you and your surroundings.

Hydraulic Air Driven Pumps

Sprague products are reasonably priced and resourceful in energy conservation. Our Sprague pumps offer an efficient alternative to engine driven hydraulics and are created to provide you comparable advantages. We offer a wide variety of Sprague pump products including:

- Air Driven, Double Acting Hydraulic Units
- Advance Air Driven Pump System
- Standard Hydraulic Pump
- Double Acting Piston Pump
- Hand Pumps/ High Pressure Hand Pump
- Non-Contaminating Power Units and Pumps
- Non-Contaminating Pumps for De-Ionized Liquids

No matter the industry and intended use, our selection of Sprague products will deliver the quality and safety you require.
