Item Series : Sprague

[Request Quote](#) [1]

Straight, complete with tube end machining.

NOVA SWISS nipples are manufactured from our standard tubing. The threads and tapers at the ends are machined according to exact specifications. The precision surface quality of the tapers provides the assurance of leak-free connection to NOVA SWISS components in both gas and liquid applications.

Nipples marked with A are soft-annealed and comply with the NACE MR0175 standard (latest revision).

Item Name	Straight Nipple	Pressure Rating [kpsi]	20
Pressure Rating [bar]	1380	Nipple Length [inches]	5.43
Nipple Length [mm]	138	Tube O/D [inches]	1
Tube O/D [mm]	25.4
