

A5061-R

Item Series : 5000 Series

[Request Quote](#) [1]

A new combination of quick and slow opening Valves in one body operates the same as 4000 Series. The lever operated section is the blowing Valve. The blowing Valve can be removed for repair while the sealing Valve remains in service (Fire Banked).

All Valve bodies are made of carbon steel and are easy to operate at max mum blow-off pressure.
